

Open Faculty Position at Tohoku University

The Department of Aerospace Engineering invites applications for a tenure-track faculty position at the Associate Professor level.

The successful applicant will join the Advanced Aerospace Engineering Group of the department. The Aeronautical Engineering Group of the department is active in Aerodynamic Design and Smart Systems for Materials and Structures. We are seeking exceptional applicants who will develop a high-impact research program in the broad areas of Aeronautical Engineering and is expected to be a future candidate for Full Professor in the Aeronautical Engineering Group. We will place higher priority on the originality, impact, and international view of the candidate's work.

Responsibilities will include teaching at the undergraduate and graduate levels and directing research projects that lead to MS and Ph.D. theses. The applicants must hold a doctoral degree in an appropriate field. The position is open to any candidate who fulfills the listed academic requirements, regardless of gender or nationality. The successful applicant, of Japanese or non-Japanese nationality, will become a Japanese National University Corporation employee and be paid accordingly.

The laboratory's management will be independent, and the budget allocation and student assignments will be the same as those of full professors. The research space will be provided for starting up a new laboratory. The teaching and administrative responsibilities should be the same or lower than those of associate professors.

The position will be available after 1st January 2025.

The term of appointment is seven years (without reappointment as the same position). If a tenure-track faculty member has made excellent achievements during the term, he/she will be appointed to a tenured Full Professor position in the Aeronautical Engineering Group. However, according to the achievements, a tenured Associate Professor position may be offered as the next position.

All applications received by 16th August 2024 will be considered.

The applicants should submit their application by mail (recorded delivery) or e-mail, including (1) Curriculum vitae including research and teaching histories, (2) list of research achievements [peer-reviewed journal articles (mark the corresponding author, if applicable), full-text reviewed international conference papers, other papers (other than those mentioned above), invited lectures, books, articles, patents, awards, research fundings (whether as a representative or a contributor), activities in academic and social societies, other special items], (3) teaching statements, (4) statements of research achievements and future research plans, (5) copies of five major publications with a summary and evaluation of each publication, and (6) two reference letters to:

Prof. Satoshi Murata

Chair, Division of Mechanical Engineering, Graduate School of Engineering, Tohoku University
